PROFESSIONAL SUMMARY

MCA student with a B.Sc. in Mathematics and a strong interest in software development. Hands-on with **Python, Java, SQL, Django REST Framework, Node.js, and MongoDB**, with experience building REST APIs and database-driven web applications. Eager to learn new technologies and contribute to real-world software projects.

TECHNICAL SKILLS

Backend and APIs:	Python, Django, Django REST Framework, Node.js, Express.js, REST APIs, Postman
Frameworks & Libraries:	Django, Node.js, Express.js
Databases:	MongoDB, Mongoose, MySQL
Web & Frontend:	JavaScript, EJS, HTML5, CSS3
Tools & Platforms:	Git, GitHub, Visual Studio Code, Postman
Core CS Foundations:	Java, SQL, Object-Oriented Programming (OOP), DBMS, Data Structures

PROJECTS

AptitudePro — Online Aptitude Learning & Performance Analysis System github.com/anjanasuresh3535

Technologies: Node.js, Express.js, MongoDB, Mongoose, EJS, JavaScript, HTML5, CSS3, sql.js

- Built a full-stack aptitude practice platform for placement preparation with **195 levels across 9 tiers**, timed quizzes in 5 sections (Maths, Logical, English, Programming, Mixed) and company-specific tracks such as **TCS, Infosys, and Wipro**.
- Designed a MongoDB schema with Mongoose for users, questions, results, section progress, user stats and XP history; stored answer snapshots so past attempts keep their solutions and formulas even if questions change.
- Implemented session-based authentication with bcryptjs password hashing, express-validator input checks, role-based route protection (user/admin) and Helmet security headers.
- Developed quiz evaluation, XP and level services, and section progress tracking, with score, accuracy, time taken and question-by-question review with step-by-step solutions.
- Added an in-browser SQL practice console using **sql.js**.

INTERNSHIP EXPERIENCE

Full Stack Development Intern — *Faith Infotech, Kerala* **(One-week internship)**

Technology/Tools used: Python, Django REST Framework, REST APIs, MySQL, Postman

- Implemented Python-based backend and REST API workflows using Django REST Framework, covering request handling and integration between application components.
- Tested API endpoints with Postman to verify request and response behavior.

CERTIFICATIONS / COURSES

- **Data Analytics with Python** — NPTEL SWAYAM

EDUCATION

Master of Computer Applications (MCA) **2025 – 2027**
MACFAST, Thiruvalla, Kerala
First Sem CGPA: **8.72/10** | Second Sem CGPA: **8.39/10**

B.Sc. in Mathematics **2022 – 2025**
Catholicate College, Pathanamthitta, Kerala

LANGUAGES

Malayalam, English
